

# TESI3 EF

*Electric*

Radiator painted in Standard White (cod. 01)

## Electric Radiator **TESI3 EF**

Steel electric radiator with thermal fluid. **TESI 3 EF** steel electric radiators are excellent interior design radiators. They are painted in Standard White color (cod. 01). Electronic control with 'pilot-wire' control including off control, comfort control and night economy function (-3.5°C), antifreeze function (7°C). The pilot-wire recognises 6 functions: Comfort, Off, Antifreeze function, Night economy function, Comfort -1°C, Comfort -2°C (the functions can operate only with the remote control pilot-wire). The power supply cable is without plug.

### **TECHNICAL FEATURES**

Single phase power supply 230 V, 50 Hz, Class II, IP 24.

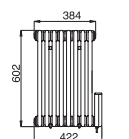

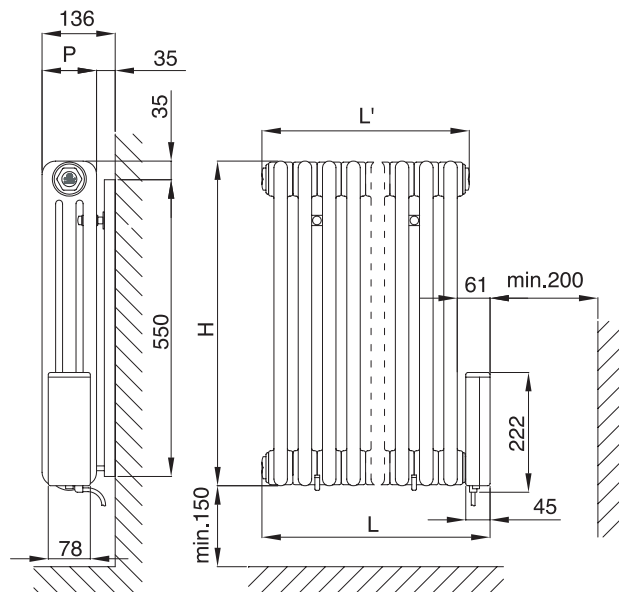

Radiator painted in Standard White (cod. 01)

### Technical specifications:

See table below for dimensions.

Pressed sheet steel manifolds.

25 mm diameter sheet steel tubes.

45 mm long elements (element pitch).

Complete with thermal carrier fluid.

The TESI3 EF Electric radiator is cataphoresis painted

with Standard White (Code 01) epoxy powder only.

The heating element features electronic control with:

pilot-wire control, off, comfort, night economy (-3.5°C) and antifreeze function (7°C).

The pilot-wire control recognises 6 functions:

comfort, comfort -1°C, comfort -2°C, night economy, antifreeze and off (these functions can only be used with the pilot-wire remote control).

Power supply cable without power outlet pursuant.

Brackets: White Standard wall brackets included.

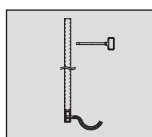

Single phase power supply 230 V, 50 Hz, Class II, IP 24.
